Cold Storage Rooms and Chambers

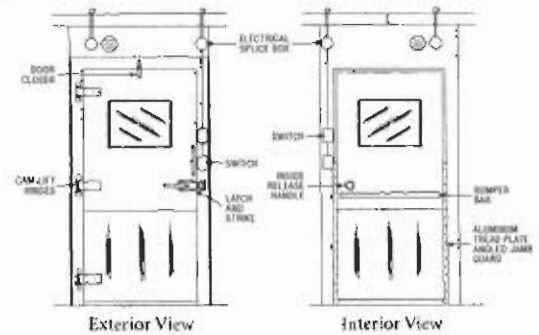

ECON/O/COLD* H-30, S-30 Cooler and Freezer Doors

- 20-Gauge Stainless Steel Finish
- 3" Class I Urethane Insulation
- Mortise Dead Bolt Lock with Inside Safety Release
- Hydraulic Rack and Pinion Door Closer
- Three Chrome Finished Cam Lift Hinges
- 18-Gauge Stainless Steel 3/4" x 4" Raised Casing
- Jamb and Sill Heater Assembly
- 120v/230w Door Heater at Freezers
- Three Pane Tempered Glass Vision Panel, Heated at Freezer
- 16-Gauge Stainless Steel Kick Plates
- 1/8" Aluminum Tread Plate Jamb Guards

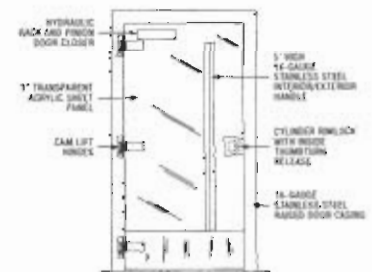

ECON/O/COLD* H-25, S-25 Cooler and Freezer Doors

- 20-Gauge Stainless Steel Finish
- 3" Class I Urethane Insulation
- Chrome Finished Door Latch with Inside Safety Release
- Snugger Type Door Closer
- Three Pane Tempered Glass Vision Panel, Heated at Freezer
- Three Chrome Finished Cam Lift Hinges
- 18-Gauge Stainless Steel 3/4" x 4" Raised Casing
- Jamb and Sill Heater Assembly
- Door Heater at Freezers
- 16-Gauge Stainless Steel Kick Plates
- 1/8" Aluminum Tread Plate Jamb Guards

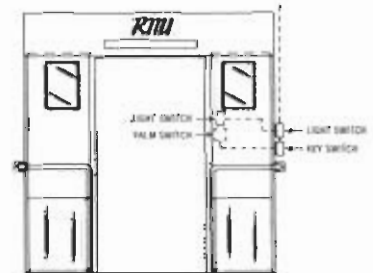

ECON/O/COLD* "Plexicon" Cooler Door

- 1" Thick Clear Transparent Acrylic Sheet
- 14-Gauge Stainless Steel 5" Door Pull
- Dead Bolt Lock with Inside Release
- Hydraulic Rack and Pinion Door Closer
- Three Chrome Finished Cam Lift Hinges
- 18-Gauge Stainless Steel 3/4" x 4" Raised Casing
- Jamb and Sill Heater Assembly
- 16-Gauge Stainless Steel Kick Plates
- 1/8" Aluminum Tread Plate Jamb Guards

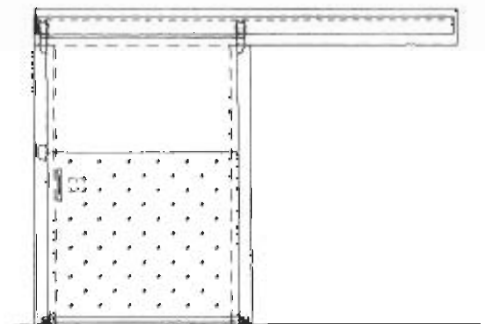

ECON/O/GLIDE* Automatic Power Door

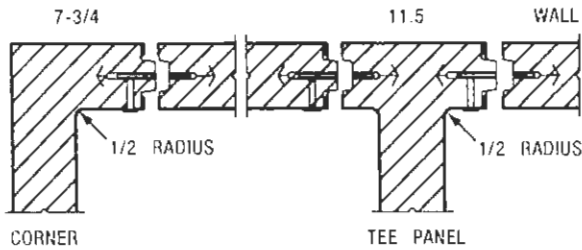

- 20-Gauge Stainless Steel Finish
- Class I Urethane Insulation
- Interior/Exterior Infrared Sensor Activators
- Door and Frame Heater with Self-Regulating Thermostat
- Heated Three Pane Tempered Glass Vision Panel
- Tubular Stainless Steel Bollards
- Exterior Key Switch
- Manual Override Opening

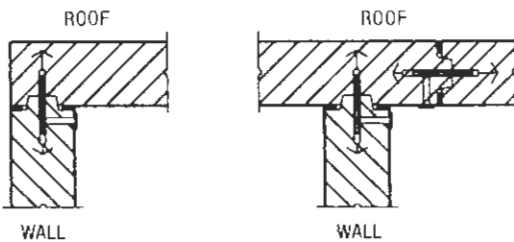

ECON/O/SLIDE* Mark XV Manual Sliding Door

- 20-Gauge Stainless Steel Finish
- 4" Class I Urethane Insulation
- Stainless Steel Recessed Door Handle
- Inside Safety Release
- Heavy Duty Steel Door Stops with Resilient Bumpers
- Resilient Flexible Vinyl Gasket
- Top Hung Solid Steel Door Hangers
- Micro Leveling Door Adjustment Nuts
- One Piece Trolley Assembly with Extruded Aluminum Chassis
- Heavy Duty Nylon Clad Hardened Steel Ball Bearing Rollers
- Corrosion Resistant Extruded Aluminum Rail and Track

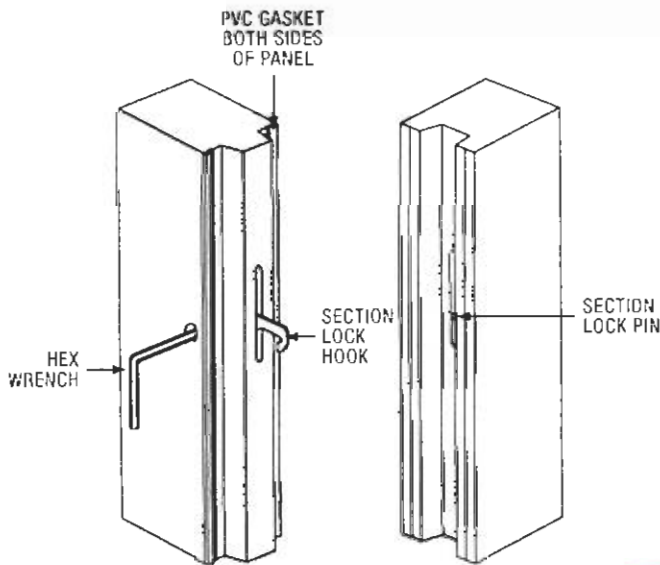

Typical 4" Thick Panels

Modular Panel Sizes and Shapes

The RMI/Econocold Modular Thermal Barrier System is the right choice for professionals who know and recognize quality. We would like to point out to the discerning specifier that RMI modular panels are comprised of alternating dissimilar materials, ie metal facings and foam core, intimately fixed in relation to each other, so as to attain synergistic structural advantages, analogous to be "I-beam", with the facings carrying direct compression and tension loads, as do I-beam flanges, and the core carrying shear loads, as does the I-beam web. RMI panel core is Class I (U.B.C) Urethane, foamed in place, 4-inch thick fully adhered to precision formed metal facings. RMI panel joints are super strong, super deep urethane, tongue and grooved (unitite), with dual perimeter, double bulb PVC gasket seals integral with the metal flange. RMI panel cam locks facilitate quick and efficient assembly of wall, ceiling and floor panels. RMI foamed panels are available with creative facings, such as vinyl laminates, embossed metal, anodized aluminum. RMI panels accommodate building constraints such as angular walls, columns, low beams, etc. RMI systems 34-1 panels are the right choice.

Panel Fascia Options

- Stucco Embossed Aluminum, .040" Thick
- Flat Aluminum Sheets, Alloy No. 5052, H-34, .040" Thick, with Baked White Acrylic Finish
- Flat Stainless Steel Sheets, 20-Gauge, Type 304, No. 4 Finish
- Prime Galvanized Steel Sheets, 20-Gauge
- Field Applied Veneer of 3/32" FRP-X. Use PVC Divider Moulding at Abutting Edges
- Protect Exposed Corners with 2"x 2"x 18-Gauge Stainless Steel Angles
- Custom Finishes and Gauges Available
